

## Continuing Program Student Registration Campaigns—Populations Not Included

As we are doing mass outreach to our currently active program students encouraging self-service registration in classes for the upcoming term, it may be value-added to recognize there are populations of students at the college that are not included. This is usually due to there being a specialized or different enrollment process for these students.

- ✓ Continuing Education/Non-credit students
- ✓ School of Academic Advancement students
- ✓ Programs available to incarcerated students (e.g.; Custodial Services and Horticulture)
- ✓ Nursing Assistant students (NSGNA 305431)
- ✓ Apprenticeships
- ✓ Youth Options students
- ✓ Students with holds on their accounts that bar them from enrolling (i.e.; financial holds)—Note: we do initially communicate to these students early in the campaign to alert them of their enrollment window; however, we do not continue to remind students to enroll if they are not able to take action due to a hold on their account.
- ✓ Students in a pre-petition status who have nothing left to complete will be excluded from certain communications, but not all.
- ✓ Continuing Conditional Admit students will be contacted separately by advising.
