

MADISON COLLEGE

Expanded Function Dental Auxiliary (EFDA) - Clinical Supervising Licensed Dentist

Applicants must provide information on the supervising licensed dentist to complete the clinical portion of the EFDA training. The supervising dentist must provide direct supervision and assess clinical skills at the listed dental office to confirm EFDA competencies. Evaluation forms, number of procedures/patients, etc. will be provided after starting the EFDA Program. This Dentist may be different from who confirmed the initial hours practicing as a dental assistant. Completed forms should be emailed to enrollmentservices@madisoncollege.edu. Review time-frame is 2-3 weeks.
